

## ❖ About Us

Leveraging on the latest technologies and dedicated workforce, we **Siddhi Cool Tech Pvt. Ltd. (an ISO 9001:2015 certified organization)** are internationally renowned for offering world class and high quality products. Our company is identified as specialized manufacturer, supplier and exporter of an extensive array of supreme quality of different types of **Coolit Ice Gel Packs, Coolant Packs, Gel Ice Packs, Chill Packs, and PCM Packs in LDPE pouch form & HDPE Container bottle form of various sizes, TCD Boxes (Temperature Controlled Distribution Box)**. Siddhi Cool Tech Private Limited is a manufacturer, Supplier and exporter of cold chain solutions products. These products are prepared with premium quality raw material and using technologically advanced manufacturing machines. Our manufactured products are widely acclaimed for their best quality. They have higher demand in pharmaceuticals industries, Healthcare, life sciences, Biotech, Clinical Research, Blood Banks, Pathology Labs, Fishing Industries etc. and so forth.

Our manufactured products are considered as the most economical packaging solution for the transport and distribution of temperature sensitive products such as pharmaceuticals, healthcare, life sciences, food products and perishable commodities etc. The company is run by dedicated entrepreneurs who promise and deliver services to its customers. We have managed to maintain trust worthy and reliable relations with these entire firm and our clients to ensure ethical business practices in the long run. We take privilege in boasting that our company has overcome the competitive market under the able guidance of our trusted **Managing Director, Mr. Navin Patel** over the many past years. His valuable industry experience and domain expertise along with complete business acumen has led us to this the pinnacle of success in a very short span of time. Backed with his experience and vast knowledge of this domain, we have been able to attain a commendable position in this domain.

To continue our best manufacturing practices, we have evolved an ultra-modern infrastructure in Ahmedabad (Gujarat), which consists of all requisite machines and equipment. Our infrastructure set up has enabled us meet various demands of customers successfully and delight them in a best possible style. With range of offering qualitative products, we have been able to win trust of variant customer spread over India. Following honest business policies at all levels in our business practices, we have been able to create a position of high repute in the industries. Furthermore, we have developed all over the place distribution network that assists reach maximum customers and help them satisfy their various requirements.

It has always been an endeavor of Siddhi Cool Tech Private Limited to make **Coolit** the best and top brand of India by maintaining and improving quality measures, customer satisfaction, providing customized solutions and eco-friendly products. You can contact us for more details of our pre designed product range or for a customized solution as per your requirement and usage. Our technical experts will be more than pleased to provide you perfect solution, be it storage, transportation, refrigeration or increase shelf life of product, please mail us for your requirements.

## ❖ Company Profile

We have gained market leadership as manufacturer, supplier and exporter owing to our superior products ranging from **Coolit Ice Gel Packs, Coolant Packs, Gel Ice Packs, Chill Packs, PCM Packs in LDPE pouch form & HDPE Container bottle form of various sizes, TCD Boxes (Temperature Controlled Distribution Box), Cold Chain Solution Products**. Our state-of-the-art infrastructure enables us to manufacture high quality and efficient products made from ecological material. Being robust, efficient and eco-friendly, our products prove to be a sound shelter to various sectors across the world. Moreover, these are easy to carry. Our technologically advanced machines and equipment allow us to provide customized solutions to the clients for logo, size, design and color. Importantly, we maintain timely delivery and honorable business practices.

<b>Business Type</b>	: Manufacturer, Supplier, whole Sheller & exporter
<b>Sales Volume</b>	: Above 1 Crore
<b>No. of Production Unit</b>	: 1 Unit
<b>No. of Staff</b>	: 10
<b>Monthly Production Capacity</b>	: Above 3 lac pieces
<b>Production Type</b>	: Automatic, Semi-automatic & Handmade
<b>Primary Advantages</b>	: <ul style="list-style-type: none"> <li>• Quality Control Unit</li> <li>• Robust Infrastructure</li> <li>• Timely delivery of consignment</li> <li>• Easy Modes of Payment</li> <li>• Ethical Business Practice</li> </ul>
<b>Product Range</b>	: Ice Gel Pack, Coolant Pack, Cool Pack, Chill pack, PCM pack etc.

**Siddhi Cool Tech Private limited** is leading manufacturer, suppliers and exporter of various type of **Coolit Ice Gel Packs, Coolant Packs, Gel Ice Packs, Chill Packs, PCM Packs in LDPE pouch form & HDPE Container bottle form of various sizes, TCD Boxes (Temperature Controlled Distribution Box) and Cold Chain Solution Products** having manufacturing facility based in fastest growing mega-city Ahmedabad of Vibrant Gujarat, the pharmaceuticals hub and one of the top industrial state in India. Many years of experience and knowledge in our company ensures you have the right soundboard to evaluate your packaging concepts and ensure they meet the requirements of today's market. Reputed international client's and locally based pharmaceuticals, healthcare, life sciences etc. companies welcomed and appreciated our inputs.

We provide a one top total solution to the Industry, total commitment, confidence, transparency and trusted are at our heart for what we work. Intensive field experience, comprehensive job knowledge and scientific approach are the pillars of our market standing. Our technical experts will be more than pleased to provide you a perfect solution, be it transportation, storage, refrigeration or to increase shelf life of products, please contact us for your requirements.

### ❖ *Research & Development*

We have research and development wing, which is backed by state-of-the-art machines and equipment along with support of highly qualified and experience professionals. In order to design and manufacture temperature control products according to latest trends, our researchers and developers take responsibility. They do thorough researches that help them produce the assortment that stand high on customer's diversified requirements.

### ❖ *Our Team*

Backed with the team of highly experienced professionals, we have been able to cater to the needs and demands of our valuable customers in the most efficient manner. We believe that the efficient workforce is driving force behind our remarkable success in this domain. Their eye for detail and commitment towards work has helped us in winning the trust of our valuable customers in the most efficient manner. Moreover, they work in close coordination with each other to avoid any kind of hassle in workplace. The professional staff makes sure of timely delivery of consignment and timely replenishment happen as per orders.

We are armed by highly qualified and experienced industrial professionals, who possess in-depth knowledge of temperature control products manufacturing. They work in close coordination with each other and ensure that customers' all requirements are met within the stipulated time frame. Our team members work round the clock for customer's convenience. They are well trained according to latest market needs and well versed with advanced manufacturing technologies.

### ❖ *Quality Control*

Our company is supported by extensively experienced quality controllers, who are familiar with set industry standard quality norms. The help us design and develop the products that sustain high on standard quality norms and customer's expectation too. Our diligent quality controllers keep vigil eye over the entire production process and make sure that quality doesn't hamper in any manner. To determine the exact quality level, they conduct various essential tests like Data analysis, temperature Logger Report etc. Moreover, our quality controllers also help us in selection of vendors from whom, we procure raw material.

### ❖ *Our Infrastructure*

For the purpose of manufacturing of the offered range, we have set up a huge infrastructure at Ahmedabad, Gujarat. We have evolved ultra-modern infrastructure that comprises all sophisticated machines and equipment for manufacturing high quality cold chain products. Our infrastructural facilitate us in smooth production of products that are free from any defect. We have carefully divided our infrastructure into several units. This ensures that all the on-going processes are carried out in streamlined way. In order to strengthen our manufacturing process and meet all demands efficiently, we regularly maintain and upgrade manufacturing machines and equipment.

### ❖ *Customer Satisfaction*

We manufacture products with well tested raw material with an objective to achieve complete customer satisfaction. Custom oriented approaches have helped us catering to the precise needs of our valuable customers in the most efficient manner. Ethical business policies and complete transparency in all the business dealing has helped us in winning the trust and heart of our valuable customers. Every product is developed under the right supervision of experts to prevent any hamper in quality and meet customers' diversified requirements efficiently. Our special team of quality analysts tests them on industry standard quality norms then allow for final dispatch. Keeping the convenience of our customers in mind, we offer customize d solutions. Timely delivery of the offered range is attained owing to our wide distribution network.

### ❖ *Why us?*

Our ability to manage and meet the bulk demands in the most efficient manner, we have been able to cater to the needs of our valuable customers. Our infrastructure manage by skilled professionals has helped us in manufacturing and supplying a wide range of optimum quality products at cost-effective prices. All the products are provided with consistent quality that our customers demand for. Quality of the offered range never compromised and it is delivered within the assured time frame at the customers' end due to our rich distribution network. There are some other certain factors that always keep us ahead of competitors in the market. Such factors are as follows:

- Easy modes of payment
- State-of-the-art infrastructure
- Stringent quality check
- Ethical business practices
- Timely delivery of consignment

### ❖ *Product Presentation*

We are offering an unmatched range of **Coolit Ice Gel Packs, Coolant Packs, Gel Ice Packs, Chill Packs, and PCM Packs in LDPE pouch form & HDPE Container bottle form of various sizes, TCD Boxes (Temperature Controlled Distribution Box)** which found application in various field such as pharmaceuticals, healthcare, life sciences, biotech, blood bank, pathology labs, food industry, fishing industry etc. Possessing attributes such as light in weight, eco friendliness, sturdiness, durability, temper resistance and excellent finish. These products can also be customized in accordance with the specifications given by our valuable customers.

➤ Available Coolit Products are as under:

⇒ Coolit Ice Gel Packs, Coolant Packs, Gel Ice Pack, Chill Packs in LDPE Pouch:

**Coolit Gel Packs** are normally in LDPE Plastic Pouch as well as HDPE Hard Container filled with gel refrigerant for maintaining 2° to 8° C. These cool packs are normally used by pharma companies for their temperature sensitive shipments. **Coolit Ice Gel Packs, Coolant Packs, Gel Ice Packs, Chill Packs, Cool Packs** filled with gel in LDPE Plastic Pouches form as well as HDPE Hard Container form to facilitate cost effective transportation of pharmaceuticals, Healthcare, life sciences, biotechnical products like medicines, vaccines, blood, vaccine vials, injectable, formulations etc. and other temperature sensitive perishable products. These Ice Gel Packs, Cool Packs offer a robust & economical solution for shipping perishables at 2° - 8° C. **Coolit** Ice Gel Packs are best solution to cold chain logistics as they:

Coolit Ice Gel Packs in LDPE Pouches:

Dimension	Weight
25x15 cm	700 gm
23x15 cm	450 gm
23x15 cm	350 gm
21.5x15 cm	500 gm
21X15 cm	400 gm
15x15 cm	250 gm
16x13.5 cm	200 gm
15x11 cm	200 gm
15x11 cm	170 gm

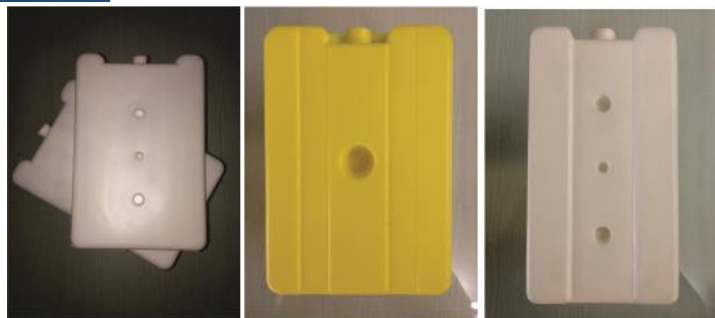

⇒ Coolit Ice Gel Packs, Coolant Packs, Gel Ice Pack, Chill Packs in HDPE Hard Container:

**Coolit Ice Gel Pack** in HDPE Hard Container form also to facilitate cost effective transportation of pharmaceuticals, Healthcare, life sciences, biotechnical products like medicines, vaccines, blood, vaccine vials, injectable, formulations etc. Ideal alternative for dry and wet ice transportation and non-permanent storage, these can be reused if not torn or punctured. These products rendered by us are also available in several customized form, as per specifications given by the valuable customers. These Ice Gel Packs, Cool Packs offer a robust & economical solution for shipping perishables at 2° - 8° C.

Coolit Ice Gel Packs in HDPE Hard Container:

Dimension	Weight
18.5x10x2.5 cm	400 gm
16x11x3 cm	450 gm
15.5x11x2.8 cm	450 gm
16.5x8.5x2 cm	250 gm
21.5x14.5x2.3 cm	675 gm

⇒ **Coolit PCM (Phase Change Material) Packs in HDPE Hard Container:**

**Coolit PCM Packs** are available as PCM filled HDPE Hard Container Packs / Bottle for temperature range of -30° C to -5° C. **Coolit PCM Packs** eliminate the drawbacks associated with dry ice where the shipments need to be frozen. Dry Ice is restricted by when shipped by air.

**Coolit PCM Packs in HDPE Hard Container:**

Dimension	Weight
18.5x10x2.5 cm	400 gm
16x11x3 cm	450 gm
15.5x11x2.8 cm	450 gm
16.5x8.5x2 cm	250 gm
21.5x14.5x2.3 cm	675 gm

These Packs are hydrate salt based and offer safe alternative to dry ice.

- **Coolit Ice Gel Packs** are non-toxic, non-hazardous and bio friendly.
- **Coolit Ice Gel Packs** are best replacement of dry and wet ice for transportation and temporary storage as they are economic, stay longer and colder than ice.
- **Coolit Ice Gel Packs** can be reused if not torn or punctured.
- **Coolit Ice Gel Packs** are the best economically viable alternate to Refrigerated/Insulated transportation which is quit costly.
- **Coolit Ice gel Packs** are readily available in different sizes or you can contact us for customized solutions we provide as per customer specific requirements for different products and used.

⇒ **Coolit TCD Boxes (Temperature Controlled Distribution Box):**

**WHAT IS CTCD? :** The term CTCD refers to the sequence of operation under which the perishable products are held and handled in turn by procedure, distributor and retailer. The intention of the system is to ensure that the temperatures maintained during distribution of the product until they reach the customers, are those consistent with the maintenance of high quality. In other words it is a system of transporting, storing and distributing perishable product in potent state at recommended temperatures from manufacturer to the point of use. Most of the sensitive, medicinal, pharmaceuticals and bio-chemical products lose their potency when exposed to undesirable temps and sunlight. To prevent sunlight from affecting the products is relatively easier but to keep them at prescribed temp is a difficult task. This maintenance of right temperature during all the operations of distributions including primary storage, interim storage and transportation is called 'CONTROLLED TEMPERATURE CHAIN DISTRIBUTION.'

### ➤ Thermal Packaging & Testing:

Our designing team starts collecting information of your payload, shipping method and acceptable temperature range and excursion. Based on your requirement and our extensive knowledge of thermodynamics, material science, proprietary database of successful designs & software tools like solid works we develop optimal thermal solutions.

We analyze your total cold chain requirement – distribution, logistics and economics. We consider overall cost and cost effectiveness of the insulating material, refrigerant type & overall size, weight, ease in packing and type of shipment.

Once our design is ready it is put under testing, thermally mapping your prototype payload area and monitoring the temperature. We refine and improve our designs if required.

The final prototype or your packaging system is put under pre-qualification or trial. A successful pre-qualification test assures us that the packing design is complete and ready for your thorough field trial. We keep you involved at all the stages & may also conduct the trials in your environmental chambers.

#### ❖ *Our Vision*

To be a leading and trusted supplier of temperature controlled thermal packaging at most affordable process to pharmaceuticals, biotech, life sciences, clinical research and food industry. We dedicate ourselves to provide affordable products, quality and innovative cold chain logistic solutions in the market, to our clients and evolve ourselves as one of the leading manufacturers in this fast growing industry in India. Our vision is to provide total customer satisfaction and value to our clients by providing quality products.

#### ❖ *Our Mission*

Siddhi Cool Tech Private Limited is dedicated to; helping our customers identify solutions for their temperature sensitive packaging needs & design and manufacture, highest quality, most effective and efficient thermal packaging solutions. We believe in responsible industry leadership, creating profitable growth in harmony with environmental sustainability and good corporate citizenship.

#### ❖ *Our Goal*

- Our goal is meet your cold chain requirement with perfect solution and simplifying the process. Understanding your need & matching them with off the self-products or designing cost effective customized thermal solutions.
- Evaluating your present pack outs.
- Step by step management of the cold chain.
- Initiating innovative ideas and creating new opportunities
- Supporting you in training your packaging staff.
- Making ideas become a reality

### ❖ *Siddhi Cool Tech Advantage*

- ✓ Superior products as special additives are used.
- ✓ Affordable pricing structure for all order sizes.
- ✓ Fully stocked warehouse.
- ✓ Shortest lead time in cold logistics industry.
- ✓ Custom printing, packaging & embossing available.
